Senior Revenue Operations Specialist/Business Analyst

bensonkmathew01@gmail.com | +91-9645153329 | [linkedin.com/in/benson-k-mathew](https://www.linkedin.com/in/benson-k-mathew)

PROFESSIONAL SUMMARY

Results-driven Sr. Business Analyst with 4.5 years of experience transforming complex, multi-source datasets into clear and actionable insights that drive strategic decision-making and operational growth. Proven track record of building scalable Power BI and Salesforce reporting frameworks, leading WBR/MBR/QBR business reviews, and delivering data-driven insights through attribution modelling, regression analysis, and cross-functional collaboration. Strong expertise in Salesforce, Power BI, Tableau, and Advanced Excel, paired with exceptional data storytelling and executive communication capabilities. Dual MBA graduate (Business Intelligence & Analytics, Finance) with a proven track record of building and scaling data infrastructure and data accuracy, and driving cross-functional alignment across Sales, Marketing, Finance, and Customer Success.

PROFESSIONAL EXPERIENCE

Senior Revenue Operations Specialist/Business Analyst | **Syncron** | Bengaluru, Karnataka Jan 2024 - Present

- Led end-to-end WBR, MBR, and QBR business reviews, synthesizing performance metrics, conversion data, and forecast accuracy into structured analytical narratives that directly shaped business strategy and planning for Sales and Marketing leadership.
- Designed and maintained **25+** automated Power BI dashboards and Salesforce scorecards, building scalable reporting frameworks that gave global teams real-time visibility into performance insights and reduced data discrepancies by **35%**.
- Lead quarterly business reviews by building executive-facing dashboards and pipeline health reports, improving forecast accuracy and enabling data-driven decision making across sales and revenue leadership.
- Executed attribution analysis and regression modelling on customer behavior across the full engagement lifecycle, identifying conversion risk signals and expansion opportunities that contributed to an **18%** reduction in average deal cycle time.
- Conducted in-depth data exploration and cleaning across multiple data sources, validating data quality and consistency to ensure reliable inputs for dashboards and executive-facing business reviews.
- Manage territory planning and quota-setting process for a **30+ person** Sales/BDR and Partner organization, aligning capacity to revenue targets.
- Performed strategic diagnostics on operational workflows, identifying process gaps and translating complex findings into clear, actionable recommendations that informed process redesign and enabled operational scaling.
- Partnered with Customer Success to analyze account health patterns, building risk scorecards that assessed competitive threats and customer segment vulnerability, with findings synthesized into retention strategy narratives for leadership.
- Collaborated cross-functionally with Sales, Marketing, Finance, and Customer Success teams to identify reporting gaps and deliver scalable improvements to data pipelines and dashboard infrastructure.
- Led a 2-member Business Analyst team, overseeing task allocation, onboarding, and quality review to scale insight delivery across the analytics function.

Revenue Operations Analyst/Business Analyst | **Syncron** | Bengaluru, Karnataka Jan 2022 - Jan 2024

- Built and automated weekly and monthly performance reports in Power BI and Salesforce, saving **8+ hours** of manual reporting per week and enabling faster data-driven decision-making across Sales, Marketing, and Customer Success.
- Developed KPI dashboards and data visualizations tracking performance health, conversion rates, and business metrics, delivering actionable insights to senior stakeholders on a consistent cadence.
- Conducted attribution analysis and in-depth data exploration to surface growth opportunities, identify performance gaps, and support business strategy across product and sales teams.
- Gathered and translated business requirements from Sales and Finance stakeholders into functional documentation and Salesforce workflow enhancements, improving reporting accuracy and process alignment.

- Built Salesforce reports tracking performance health and identifying high-potential growth segments, directly informing planning and lead generation strategy.
- Ensured data integrity across Salesforce CRM by managing workflow automation, routing rules, and data hygiene processes, strengthening stakeholder confidence in reporting outputs.
