PROFESSIONAL SUMMARY

Go-To-Market Enablement Analyst with 4.5 years of experience in enterprise SaaS, specializing in pipeline governance, funnel analytics, Salesforce administration, and GTM process optimization. Proven track record of improving pipeline visibility, analyzing MQL-to-opportunity conversion performance, identifying funnel bottlenecks, and enabling data-driven decision making across Sales, Marketing, and Customer Success teams. Strong expertise in Salesforce, Power BI, SQL, and revenue analytics, with experience building scalable reporting frameworks, maintaining data integrity, and driving operational excellence across global GTM organizations.

PROFESSIONAL EXPERIENCE

Senior Revenue Operations Specialist | **Syncron** | Bengaluru, Karnataka

Jan 2024 - Present

- Analyzed sales and marketing funnel performance across multiple regions, identifying conversion bottlenecks, pipeline leakage, and forecast risks that informed GTM process improvements and qualification strategies.
- Monitored pipeline progression, conversion rates, and forecast performance across multiple regions, identifying funnel bottlenecks, leakage points, and process inefficiencies that informed GTM improvements.
- Partnered with Sales and Marketing stakeholders to improve lead management processes, pipeline governance, and stage progression discipline within Salesforce.
- Designed and maintained Salesforce and Power BI dashboards tracking pipeline health, conversion metrics, coverage ratios, and revenue performance for executive leadership.
- Leading end-to-end WBR, MBR, and QBR business reviews by synthesizing pipeline health, conversion metrics, and forecast accuracy data into compelling executive narratives that directly shaped GTM strategy and revenue planning for Sales and Marketing leadership.
- Designed and maintained **25+** Salesforce and Power BI dashboards tracking pipeline health, conversion rates, coverage, and revenue performance.
- Maintained CRM data quality standards through validation processes, workflow improvements, and reporting governance, reducing data discrepancies by **35%**
- Analyzed lead-to-opportunity and opportunity-to-close conversion performance, identifying conversion risk signals and expansion opportunities across the GTM lifecycle, that contributed to an **18%** reduction in average deal cycle time.
- Leading a 2-member Business Analyst team, overseeing task allocation, on-boarding, and ramp-up to scale insight delivery across the RevOps function.

Revenue Operations Analyst | **Syncron** | Bengaluru, Karnataka (Remote)

Jan 2022 - Jan 2024

- Built and automated weekly and monthly sales performance reports in Power BI and Salesforce, saving **8+ hours** of manual reporting per week and enabling faster decision-making for Sales, Marketing, and CS teams.
- Developed KPI dashboards and data visualisations that tracked pipeline health, conversion rates, and revenue performance, providing actionable insights to senior stakeholders.
- Monitored and analysed funnel metrics including lead volume, conversion rates, pipeline velocity, and stage progression to support GTM performance reviews.
- Conducted in-depth data analysis to surface growth opportunities, identify pipeline gaps, and support GTM strategy across product and sales teams.
- Gathered and translated business requirements from Sales and Finance stakeholders into functional documentation and Salesforce workflow enhancements.

- Built Salesforce reports tracking pipeline health and identifying high-potential growth segments, directly informing lead generation strategy.
- Partnered with Marketing and Sales teams to improve reporting accuracy, campaign visibility, and lead management processes within Salesforce.
- Supported marketing attribution reporting and campaign performance analysis within Salesforce, improving visibility into lead source effectiveness and pipeline contribution.
- Ensured data integrity across Salesforce CRM by managing workflow automation, routing rules, and data hygiene processes, improving reporting accuracy and stakeholder confidence in revenue data.
