

BENSON K MATHEW

Senior Revenue Operations Specialist

bensonkmathew01@gmail.com | +91-9645153329 | linkedin.com/in/benson-k-mathew

PROFESSIONAL SUMMARY

Strategic Revenue Operations professional with 4.5 years of experience in enterprise SaaS, specialising in transforming complex datasets into clear, actionable insights that drive executive decision-making and GTM growth. Proven track record of leading WBR/MBR/QBR business reviews, building scalable Power BI and Salesforce reporting frameworks, and collaborating cross-functionally with Sales, Marketing, Finance, and Customer Success to surface revenue opportunities and accelerate ARR growth. Combines strong technical proficiency in Power BI, SQL, Tableau, and Salesforce with exceptional data storytelling and executive communication skills. Dual MBA in Business Intelligence & Analytics and Finance.

PROFESSIONAL EXPERIENCE

Senior Revenue Operations Specialist | Synchron | Bengaluru, Karnataka

Jan 2024 - Present

- Analysing regional sales and marketing performance patterns across multiple geographies, identifying process bottlenecks impacting pipeline conversion and forecast accuracy. Synthesising findings into executive narratives that informed GTM process refinement and sales qualification strategy.
- Conducting strategic diagnostics on partner department operations, identifying gaps in pipeline management, process workflows, and compensation alignment. Translating insights into actionable recommendations that drove process redesign and operational scaling.
- Partnering with Customer Success to analyse top renewal deals and churn patterns, building risk scorecards that assessed contract health, competitive threats, and customer segment vulnerability. Synthesising win/loss analysis, deal cycle benchmarking, and competitor intelligence into strategic narratives that guided retention strategy and resource prioritisation across at-risk accounts.
- Leading end-to-end WBR, MBR, and QBR business reviews by synthesising pipeline health, conversion metrics, and forecast accuracy data into compelling executive narratives that directly shaped GTM strategy and revenue planning for Sales and Marketing leadership.
- Designing and maintaining **25+** automated Power BI dashboards and Salesforce scorecards, creating scalable reporting frameworks that gave global Sales and RevOps teams real-time access to performance insights, reducing data discrepancies by **35%**.
- Conducting strategic analysis of customer behaviour across the lead-to-deal lifecycle, identifying conversion risk signals and expansion opportunities that contributed to an **18%** reduction in average deal cycle time.
- Partnering cross-functionally with Sales, Marketing, Finance, CS and GTM teams to identify process gaps and drive scalable system improvements within Salesforce, improving pipeline visibility and forecast accuracy.
- Supporting the Director of RevOps and CRO with board-level and executive reporting, developing KPI frameworks, performance scorecards, forecasting analysis, and strategic insights to support revenue planning and business decision-making.
- Contributing to building an in-house CPQ system that standardised pricing workflows, reducing quote turnaround time by **40%** and improving data quality across the sales process.
- Leading a 2-member Business Analyst team, overseeing task allocation, onboarding, and ramp-up to scale insight delivery across the RevOps function.

Revenue Operations Analyst | Synchron | Bengaluru, Karnataka

Jan 2022 - Jan 2024

- Built and automated weekly and monthly sales performance reports in Power BI and Salesforce, saving **8+ hours** of manual reporting per week and enabling faster decision-making for Sales, Marketing, and CS teams.
- Developed KPI dashboards and data visualisations that tracked pipeline health, conversion rates, and revenue performance, providing actionable insights to senior stakeholders.
- Conducted in-depth data analysis to surface growth opportunities, identify pipeline gaps, and support GTM strategy across product and sales teams.
- Gathered and translated business requirements from Sales and Finance stakeholders into functional documentation and Salesforce workflow enhancements.
- Built Salesforce reports tracking pipeline health and identifying high-potential growth segments, directly informing lead generation strategy.
- Ensured data integrity across Salesforce CRM by managing workflow automation, routing rules, and data hygiene processes, improving reporting accuracy and stakeholder confidence in revenue data.
